

Efficiency is key to success in broiler production, and the importance of a good start in life is discussed for all species. In the case of broilers, the first three to five days actually represents a very significant proportion of a broiler's life about 10 percent. The modern breeds of broiler chickens have been selected for fast growth and at present, broilers reach slaughter weight at a physiologically younger age. It is well documented that body weight (BW) enhances threefold to fourfold during the first week of age and considerable changes in gut, muscle weight and morphology are observed.

The first week after hatch is an extremely important time for all young poultry broiler chicks must consume enough food in their first hours of life, in order to achieve a higher weight at the end of their first week of life.

JAT pre-starter feeder is the perfect equipment to achieve that.

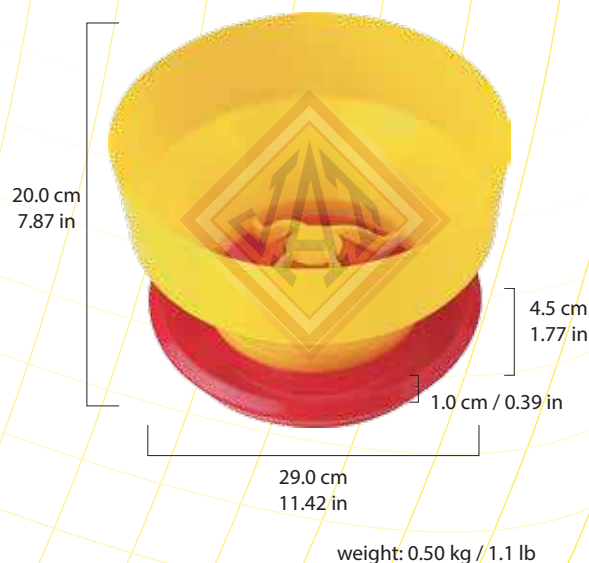

### Advantages

- ◆ Advantage over the traditional method of feeding tray, in obtaining greater weight of broiler.
- ◆ Quick and easy stowage.
- ◆ Reducing food waste, obtaining this way a greater feed index conversion (Kg. Meet/Kg. Feed) in the first days of life of broiler.
- ◆ Exclusive design on the feed tray, because it has a flange, that avoids the broiler to take food out of the feed tray while eating.
- ◆ Less time and easy cleaning and disinfection.
- ◆ The feeder has a reinforced center.
- ◆ Less contamination of food.
- ◆ The broiler educates to eat at the feeder, and not on the floor.
- ◆ Optimization in the labor cost since the filling time is less.
- ◆ Facilitation of services and spare parts.

### Material

- ◆ High quality Polyethylene conditioned with UV, UVR-protection and antioxidants that give the feeder a longer life in any environment.

## Pre - Starting Feeder CDPX0109001

### Capacity

- ◆ Recommended use: 80 – 100 Broiler chick.
- ◆ 25 – 30 Broiler chicks eating perfectly lined up.
- ◆ Optimum utilization: for Broiler chicks from 0 to 10 days old
- ◆ Food storage: 4.0 kg / 8.82 lb

### Patent

- ◆ Title of industrial design registration # 19793
- ◆ Title of utility model registration # 1534

## Components

MTLX0103016  
Tapa para comedero de pre-inicio  
Lid - Pre starting feeder

CDPX0103002  
Tolva para comedero de preinicio  
Hopper Pre starting feeder

CDPX0103001  
Plato para comedero de preinicio  
Pan Pre starting feeder

CDPX0104002  
Comedero de preinicio completo  
Complete Pre starting feeder - with Lid
