

## Automatic chicken drinker cups BAIJ0109001

### Capacity

- ◆ 1 to 20 baby chicks.

### Characteristics

- ◆ This product is recommended for use in cages from day old chicks to the beginning of the laying cycle (21 weeks).
- ◆ Cage Trigger allows the necessary adjustments as the bird grows.
- ◆ Protective vane prevents the entry of the chick inside the cup, avoiding water spills.
- ◆ The long trigger allows the new born chicks activate the device; the chick controls the amount of water that flows in the drinker by pushing the trigger.
- ◆ Easy to install, it can be directly connected to the main pipe or suspended on the cage.

### Advantages

- ◆ DURABLE-Easy to use, save labor and time for farmers. Improve the effectiveness of breeding.
- ◆ MULTI-PURPOSE-Suitable for chicken, chick, duck, bird, quail, pigeon, parrot, bird, etc
- ◆ SIMPLE STRUCTURE-This water feeder bowl's structure is simple, very convenient.
- ◆ The constant water flow allows a better hydration.
- ◆ The stainless steel cap protects the threads preventing rupture.
- ◆ Our drinking has no spring, which normally breaks and causes water spills.
- ◆ Easy installation on any type of pyramidal cage. If required, we have all spare parts are readily available.

### Cleaning system

- ◆ Good structure design, removable lower parts for easy cleaning.

### Material

- ◆ HIGH QUALITY PLASTIC-Strong toughness, anti fall, compression and anti-aging. Acrylonitrile butadiene styrene (\*ABS)  
\*Hard thermoplastic, heat and impact resistant

## Components

BAU0109004
